50,000. (020 7249 8361; kirkwoodmccarthy.com)

SEAMLESS FINISH

Not generally associated with staircases, Corian was used to achieve a robust, joint-free look in this residential project by Transform Architects. The client researched and sourced the material himself, which was then laid over a softwood core with glass guardrails either side. The complete staircase cost around £9,600.
